THOMPSON AUTO COMPANY LTD.

Owners Endorse Four Speed Performance

Owners, after many months experience with the Graham-Paige four speed transmission, enthusiastically endorse its performance. Fourth, used most of the time, gives a new smoothness and swiftness—third, a quiet internal gear, provides rapid acceleration in traffic, and up steep hills. The gear shift is standard. You start in second—first, in reserve, is seldom used. A six or eight is at your disposal.
