A safer, surer Motor Oil

Texaco Golden Motor Oil is scientifically refined. Clean and clear, it is visibly pure, free of the impurities which cause oils to solidify with cold. With Texaco you can rest assured-no matter how cold it is-that this safer, surer motor oil is flowing freely, lubricating thoroughly, giving complete, full-bodied protection

Test TEXACO Yourself

Make the simple test described at the left of this advertisement. See for yourself how freely TEXACO Golden Motor Oil flows at zero. Then consider how vital this quality will be to your engine this winter. There will be no critical seconds before the oil warms up-no dangerous moments with your cold engine grating and grinding with dry, oil-less bearings and cylinder walls. From the instant your foot touches the starter golden TEXACO Motor Oil will flow, lubricating every part of your engine.

Drain and refill with this safe oil for winter driving to-day.
