The "Why" of Willys-Knight

Superiority

HE most important development in modern motor car engineering is the sweepin treat to the size of the

Many high compression motors require special and more costly gas to prevent "knocking," even after limited mileage. With the Willys-Knight you can USE ANY GAS.

you can USE ANY GAS.

The patented Knight alecer-waive engine, because of the exclusive, fundamental principle of its design, gives not only high compression, and the engine of the eng

More Car for the Money

longer than before.

More STYLE ____ more raciness ___
the new Chervolet bodies, with their longer, lower lines that sweep in impressive harmony from the new, high radiator, exemplify the superb skill of Fisher craftsmen.

More POWER . . . more alertness . . . the improved Chevrolet engine

(of the valve-in-head type used in rac-ing cars) has 34 per cent, more power than before.

More SPEED . . . more snap . . . with unexcelled smoothness throughout the entire speed-range.

More LUXURY . more comfort easy-riding, shock-absorber springs cushion every jolt and jar. Rich, deep upholstery and exquisite appointments add to the luxury of the "Bigger and Better" Chevrolet.

More FEATURES . . . every detail of advanced design expected of the higher-priced cars to be found in the "Bigger and Better" Chevrolet.

Come in. Judge for yourself how much more car the "Bigger and Better" Chev-rolet offers for your automobile dollar.

General Motors' own deferred payment plan enient and economical way of buying your

107 wheelbase, 4 inches longer. Bigger, roomier Fisher Bodies. Non-locking four-wheel brakes. New shock absorber springs. 34.6 per cent. greater power. "Invar-strut" constant clearance pistons.
