A Doctor Talks About Cascara

It is unfortunate that many people judge the thoroughness of a laxative by its violence. The salts which pass through the system may not even penetrate the film of poison which coats the bowels. A laxative that has coated the bowels is not what is the best way to "CLEANSE THEM".

The bowels need laxative in order that Mother Nature make in her own laboratory. It is the bark of a tree called CASCARA. The Indians used to chew this bark—and reach old age without a sick day. The best thing there is today, for the bowels, is the bark of the tree. The best thing there is today, for the bowels, is the bark of the tree.

First of all, there is no HABIT. First of all, there is no HABIT. First of all, there is no HABIT.
