

NEGROES FOR SYDNEY.

THREE CARLOADS ARE COMING
FROM ALABAMA.

OPPOSITION TO THEIR DEPORTATION—
MEN ARE TO WORK FOR
STEEL COMPANY.

(Associated Press Despatch.)

CHATTAGOONA, Tennessee, Dec. 20—J. H. Means, General Manager of the Dominion Coal and Iron Company, Sydney, Cape Breton, has left on his return to Nova Scotia with three carloads of Tennessee and Alabama negroes, who will go to work in the furnaces there. Mr. Means encountered some opposition to the deportation of the negroes, but finally got them. He took the wives and daughters of the men along with them. Mr. Means has already a number of negroes hands at Sydney where the furnaces are located, and it appears that their work has been satisfactory.

BATH, Maine, Dec. 20—Sixty negroes were landed here today on their way from Birmingham, Alabama, to Cape Breton, via Bangor. Owing to interrupted railway traffic they were sent by way of Bath. The negroes are engaged to work in the Steel plant at Sydney.
